EXECUTIVE SUMMARY

Results-oriented Software Developer with 2 years of experience specializing in cross-platform mobile (React Native) and full-stack web (Node.js) applications. Proven ability to create efficient, scalable, and user-focused solutions, from concept to deployment. Adept at leveraging modern tech stacks and AI tools to optimize development and enhance product performance.

PROFESSIONAL EXPERIENCE

Full Stack Developer | React Native Developer, 07/2024 – Present | Trichy, India
Monitpro Solutions Pvt, Ltd

- Led end-to-end development of multiple cross-platform mobile apps using React Native and Node.js.
- Streamlined workflows by designing and implementing RESTful APIs, Reduced API response time from 800 to 300ms (62%).
- Implemented real-time features using Socket.IO, enhancing user engagement and data synchronization.
- Spearheaded the adoption of CI/CD pipelines, accelerating deployment cycles by 30%.

Full Stack Developer Intern, *Senchola technology* 03/2024 – 06/2024 | Trichy, India

- Co-developed and maintained full-stack web applications using the MERN stack, ensuring seamless data flow between React front-ends and Express/Node back-ends.
- Implemented new front-end features in React.js and created corresponding back-end endpoints in Express.js.

TECHNICAL SKILLS

FRONT-END

- React Native, React.js, Redux, Context API, Tailwind

MOBILE APPLICATION DEVELOPMENT

- Notifications, Reanimated, Navigation, Deep Linking

AI & AUTOMATION

- OpenAI API, Gemini API, Claude Code, Codex, n8n

BACK-END

- Node.js, Express.js, RESTful APIs, JWT, Socket.IO

DATABASE

- MongoDB, PostgreSQL, Redis & Firebase

DEVOPS & TOOLS

- Docker, Nginx, GitHub Actions, CI/CD, Jest, Postman, Swagger

COMPANY PROJECTS

(CRMS) Contractor Resource Management System 06/2025 – Present

- Engineered and maintained a scalable CRMS for the chemical industry using React Native and Node.js.
- Optimised contractor workforce allocation and tracking, reducing operational overhead by 15%.
- Integrated real-time location and reporting features to enhance manpower transparency.

Work Permit System 01/2025 – 05/2025

- Developed a comprehensive digital Work Permit system to streamline safety compliance and approvals.
- Digitised the approval process, reducing permit processing time by 90%.

OWN PROJECTS

Applied – Job Portal Mobile Application 🔗

- Designed and developed a professional job portal with React Native (Mobile) and Firebase (Backend).
- Implemented secure Google & Email authentication, multi-language support, and distinct role-based dashboards.
- Built a robust verification system for HR accounts, fostering trust and increasing quality job listings.

Cartigo – Hyperlocal Vendor Discovery Platform

- Created a mobile application bridging street vendors and customers through real-time location sharing.
- Developed a geofencing system (3km radius) to notify nearby users, increasing vendor reach and visibility.

EDUCATION

Bachelor of Computer Applications (Pursuing), 01/2026 – 12/2027 | Trichy, India
Tamil Nadu Open University

Diploma in Computer Engineering, *Seshasayee Institute of Technology* 07/2022 – 05/2024 | Trichy, India
